FiberLocator Release Notes July 13, 2023

New Features

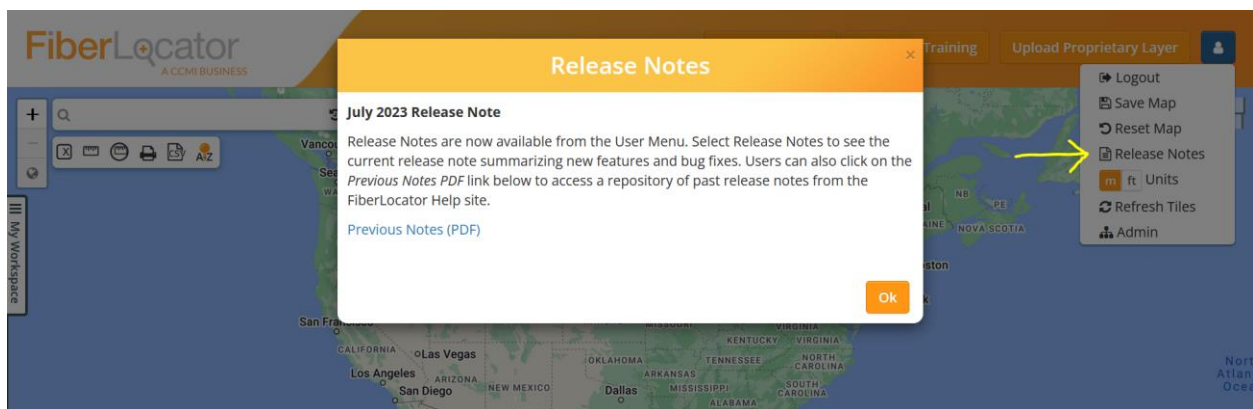

1 Release Notes

New features and bug fixes are now documented in release notes available to FiberLocator users. The current release will be summarized in a pop-up box with a link to previous releases that takes you to the FiberLocator Release Notes page on the Help site.

To access the pop-up in FiberLocator, select Release Notes from the User Menu.

Stay up to date with new features and bug fixes. Easily access previous release notes to reference month-to-month improvements and fixes.

Bug Fixes & Miscellaneous Changes

Lit Building Icons Appearing Smaller

On a relatively small number of map tiles, when lit buildings were displayed, the icons appeared smaller than the standard icon that is used. This problem was caused during the tile updating process and has now been corrected to check for this issue in the future.
